FINANCIAL AND COMMERCIAL.

The speculative feeling on the Stock Exchange has een rather tame to-day, and the advancing tendency of rices which marked the course of business in the mornwas not fully sustained in the afternoon. Erie was tive borrowing demand, and % per cent was paid for the loan of the stock, the excitement in which is gradually subsiding. There is no change to note in the general temper of the market, which is favorable to a general improvement, in sympathy with the increasing earnings of the railways, the rise of the gold premium and the prevailing monetary ease. The financial ad-vices from Europe, although unimportant, are at the

wices from Europe, although unimportant, are at the same time reassuring.

At the early session of the open board the market was dull. Gold opened at 144% and advanced immediately to 145%, but soon after noon it relapsed to 143% under the effect of the European news. Subsequently, however, there was a gradual recovery, and the market closed firm at 144% a 145. Loans were made at from 3 per cent to 1-32d in favor of the lender, a sign that the borrowing demand is increasing rapidly in proportion to the supply.

The export of specie by this day's steamers aggregated \$3.675,000, of which the Cuba took \$1,650,000, the Alleppo \$1,850,000 and the City of Cork \$175,000. The range of the gold market since the commencement of the year

The annual report of the directors of the New Jersey Railroad Company (made to the stockholders to-day) shows the total receipts to have been \$1,875,931, an in-crease over those of the previous year amounting to \$312,374. The expenses were \$1,072,657—\$286,677 more than those of last year. The capital stock of the company has been increased to \$5,000,000, pursuant to the recommendations of the stockholders at the last annual meeting. The funded debt was increased \$170,000 bonds, out of the proceeds of which the floating indebtedness of the company (amounting to \$145,000) has been paid. Extensive improvements and repairs have been made during the past year, and property has been purchased in New York and Jersey City, giving space for an increased freight business, which, it is surmised, will be needed on the completion of the connecting road at Philadelphia, which will enable freight to pass to and from the South and West without change of cars.
